On the night of 31 March 2022, Operations Supervisor Mohamed Noor encountered a couple looking visibly lost at Terminal 3 Departure Row 9. Noor quickly approached the passengers as he sensed that they might need some assistance. The tired-looking couple informed Noor that they needed directions to Jewel. Although Noor provided them with detailed directions, they still looked confused. Noticing their confused expression, Noor then offered to bring them to Jewel personally. While walking with the couple, Noor noticed that the female passenger was limping, hence, he offered to push her luggage for her. During the walk to Jewel, Noor also introduced some Jewel attractions that they could visit and reminded them of the way back to Terminal 3. The couple wrote in to compliment Noor for his helpfulness and friendliness. Good job, Noor!
